Professional Summary

Backend Engineer and Full Stack Developer skilled in MERN stack, Python, AI automation, and scalable web applications. Experienced in building AI-powered platforms, developer productivity tools, and backend systems in startup and open-source environments..

Technical Skills

Languages: Python, JavaScript, C, C++

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Tools & Platforms: Git, GitHub, VS Code, Linux

Specializations: AI Automation, Full Stack Development, API Integration, Open Source Collaboration

Work Experience

Gaprio Labs | Backend Engineer | *May 2026 – Present*

- Building backend systems, AI automation workflows, and scalable REST API integrations using MERN stack technologies.
- Developing MERN and Python-based automation solutions for workflow orchestration.
- Collaborating in startup-oriented product development and backend architecture design using Express.js and Node.js.

GirlScript Summer of Code (GSSoC) | Open Source Contributor | *Oct 2024 – Dec 2024*

- Contributed to open-source web development projects and collaborative feature implementation.
- Worked with developers on UI improvements, project structuring, and testing workflows.

Self Employed | Web Developer & Researcher | *Apr 2022 – Present*

- Built and researched multiple web applications, automation tools, and developer-focused platforms.
- Worked on frontend/backend development and optimization using React.js, Express.js, MongoDB, and REST APIs.
- Managed freelance development, creative content production, version control using Git and community engagement.

Projects

STEP – Smart Typing Enhancement Platform | Python, Workflow Management | [GitHub](#)

- Developed a smart Python based keyboard automation system for faster programming workflows and text expansion.
- Implemented dynamic shortcuts, code snippets, autocorrection logic, and productivity automation.

Ayursutra – AI Powered Ayurveda Wellness Platform | MERN Stack, AI Integration | [GitHub](#)

- Built an Ayurveda-focused wellness platform with modern UI/UX and AI-powered features.
- Worked on frontend/backend integration, scalable architecture, and wellness-oriented user experience.

Education

Graphic Era Hill University

Bachelor of Computer Applications (BCA) | 2025 – 2028

Certifications & Activities

- Full Stack Web Development Certificate – Udemy
- Freelancing, Community Management, Content Creation, and Technical Research
